

# PRODUCT CARE INSTRUCTIONS

## General Cleaning and Maintenance

For normal everyday cleaning of your MONARC Wall Panels we suggest using warm water with a mild soap applied with a soft wash cloth or sponge. Be careful not to use any abrasive cleaners or scouring pads as this will dull the surface of your new beautiful MONARC shower walls.

Do not apply sealers to any MONARC shower wall panels including the simulated tile and grout patterned walls as the MONARC shower walls are non-porous and do not require sealing.

Additional products that can be used when warm soapy water and soft cloth or sponge isn't enough are listed below along with those products that should never be used on your new MONARC shower walls. Always review individual cleansers manufacturer's instructions.

Always rinse cleaning products thoroughly from wall panels after cleaning.

### Recommended Cleaning:

- Use soft, clean sponges and cloths for application of cleaners and for washing/rinsing
- Multi-surface cleaning and/or disinfecting solutions can be used.
- A dilution of vinegar and water may be used to soften mineral deposits.
- Disinfecting: It is acceptable to use Hydrogen Peroxide, Isopropyl alcohol. Chlorine bleach per manufacturers' recommendation for dilution. Rinse immediately.

### Recommended Products:

- Mild detergent such as Dawn dish soap
- Formula 409® Multi-Purpose Cleaner
- 7th Generation® Multi-Surface Cleaner
- BioClean® Multi-Purpose
- Fantastik® All-Purpose Cleaner
- Mr. Clean® Magic Eraser
- Method® Multi-Purpose
- Microban® Multi-Purpose
- Windex® Multi-Surface Cleaner
- Simply Green® All Purpose Cleaner

\*If manufacturers change formulas we are not responsible for damage to the panels.

### **DO NOT USE THE FOLLOWING AS THIS WILL VOID ANY WARRANTY**

- Wire brushes, steel wool, sandpaper, abrasives, scrapers or other similar cleaning tools which will mechanically abrade the surface
- Any cleaners containing abrasives or grit such as Comet or Soft Cleanser
- Highly acidic or highly alkaline cleaners intended for lime scale or rust removal.
- Any cleaners with ammonia, or any solvent-based cleaners
- Use of any unapproved products or chemicals such as Thinners or MEK as they may result in a dull surface and/or may result in damaging the surface of the panel or printed imagery.
- Scotch Brite Pads
